Analytical and detail-oriented with a friendly personality. Works diligently and maintains excellent interpersonal communication, time management, and problem-resolution skills.

Work Experience

Cogitate

Senior Software Engineer

Feb 2021 - May 2024

Plano Texas, United States

- I was hired to establish a new Software Agency in the Philippines. I've prepared documentation that helped the company propel itself to what it is now today. This includes Developer Guidelines, Onboarding, Review Guidelines, and Project documentation.
- Worked on multiple projects with NextJS and NestJS as our preferred framework. Exposed to Shopify API through our School e-commerce collaboration.
- Our clients include one of the largest school networks in the US(Harmony) and the largest Waste Management company in the world - WM.

XtendOps

Software Engineer

Jan 2020 - Feb 2021

3rd Floor Kaw Sy Liong Building Brgy. Ungka II Pavia, Iloilo

- Led a redesign from scratch of the company infrastructure. This includes restructuring of database design, network communication, authorizations, and DevOps.
- I introduced standardization of process and automation. Particularly about DevOps infrastructure; pipelines; TDD process; Slack Bot integration; and developer guidelines.
- I mainly focus on delivering full stack works; writing test scripts; database management; and maintaining the Company REST API I've also authored

Project Assistant

Mid-level Frontend Developer

May 2019 - Jan 2020

2nd Floor JC Building, Delgado St. City Proper, Iloilo City

- I mainly focus on the View side of an MVC stack on a project
- Maintained Apps developed by the company such as Prefix(Extended phone's contact application)
- Worked on Southeast Asia's largest Office and Workspace platform — Flyspaces.

Waffle Time Group of Companies

Software Developer

December 2017 - May 2019

Door 5 QHP Building Arsenal St. City Proper, Iloilo City

- Waffle Time is one of the leading food and beverage companies in the Philippines, with over 1000+ branches in South East Asia. I started working at this company while in school to sustain my college bills.
- I work mainly as a full-stack developer ranging from web to desktop(.NET). I also oversee the database operations and report generation.
- Developed company websites such as Waffle Time, Coffeebreak, and Mango Magic.

Education

Central Philippine University

BS Computer Science

2013-2018

Iloilo, Philippines

Additional Information

- Bundled with great experience in Web and Desktop Development.
- Proficient in git, docker, Linux, node, and CLI commands.
- I have worked on 20+ projects in solo/collaboration throughout my career. Structures include(OOP, MVC, MERN stack, AdonisJS/ Expo/.NET framework, REST API, and Javascript SPAs). Capable of writing test scripts and DevOps works.
- Up-to-date knowledge of React(almost 7 years of strong experience) and libraries that go with it (Redux, React-Router, Redux-Form, React Final Form, Sagas, Redux-Thunk, Lodash, Enzyme, Jest, and more).
- Developed a Geographic Information System for the City Disaster Risk Management Office of Iloilo City for my College thesis.
